More information

- Day of birth: 28/03/2003.

Experience

My Portfolio

Web Developing | Since June 2022

- I learned the structure of a web site with HTML and how to give it style with CSS, also I learned animations and transitions.
- I started with JavaScript to dynamize my web site and the library ScrollReveal to make it more visual.
- I learned Git and GitHub to have control of my projects's versions

Tic Tac Toe

Processing and Java | December 2022

- I expanded my knowledge in Processing.
- I trained and proved my logic in Java in a little bit different environment as it is Processing.
- I lived the process of creating a project completely mine for first time.
